

Lemon - Glycerin Swabsticks

Lemon Glycerin Swabsticks for oral care are ideal for those needing extra moistening due to medication side effects, radiation therapy, dental surgery, disease, after general anesthesia, and drug therapy. In addition, they are great for patients prescribed fluid restricted diets. They stimulate the saliva glands, providing refreshment and relief for patients with restricted oral intake.

- Pre-moistened with refreshing lemon-flavored glycerine-based dosage form.
- Sugar-free.
- For temporary relief of minor discomfort and protection of irritated areas in soremouth and sore throat.
- Disposable. Contain three single-use swabsticks in each foil pack.
